We Americans live in a unique time and place in the history of Christianity. Never before has a nation enjoyed for so long a period the freedoms that we Americans take for granted. Those freedoms are ours today because the men and women who founded this country, and the laws and policies that they set in place, were firmly and unshamedly grounded in Biblical principles and values.

What is left of that foundation? How long will God's protective hand remain over America? What can we do to restore Biblical principles to our nation?

To learn the answers to these critical questions, bring your family, your friends and your students to an educational, motivational

PATRIOTIC EVENT

DAVID BARTON, noted American historian and author, is dedicated to energizing Christians in America to rebuild the nation's Christian foundations. In the fast-paced, captivating style for which he is famous, David enables his audience to understand the true historical and Biblical role of Christians in civil government.

With his insider's perspective, **BOB McEWEN** explains how foundational Christian values have been essential in creating the greatness that is America. His message is insightful, challenging, encouraging.

Come prepared to...

- discover how the actions of dedicated Christians changed the course of our nation;
- examine the Biblical teachings that explain the proper role of government, teachings that caused previous generations of Christians to believe that it was their duty to be involved in government;
- be encouraged to engage in civil stewardship from a Biblical viewpoint.
